# GCSE MATHEMATICS

F

Foundation Tier Paper 2 Calculator

Thursday 8 June 2017

Morning

Time allowed: 1 hour 30 minutes

## **Materials**

## For this paper you must have:

- a calculator
- · mathematical instruments.

## Instructions

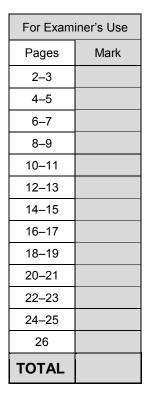

- Use black ink or black ball-point pen. Draw diagrams in pencil.
- Answer all questions.
- You must answer the questions in the spaces provided. Do not write outside the box around each page or on blank pages.
- Do all rough work in this book. Cross through any work you do not want to be marked.

## Information

- The marks for questions are shown in brackets.
- The maximum mark for this paper is 80.
- You may ask for more answer paper, graph paper and tracing paper.
   These must be tagged securely to this answer book.

## **Advice**

• In all calculations, show clearly how you work out your answer.

**21** Eva thinks she can save water by having a shower instead of a bath.

Eva's shower

uses 10.8 litres per minute

lasts for 8 minutes.

Eva assumes that the water in her bath is in the shape of this cuboid.

 $1000 \text{ cm}^3 = 1 \text{ litre}$ 

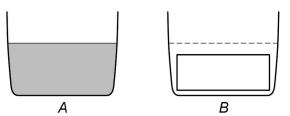

**21 (a)** Using Eva's assumption, work out how many litres of water she saves by having a shower instead of a bath.

[5 marks]

Answer litres

**21 (b)** A shows the water level before Eva gets into the bath. B shows the cuboid in the empty bath.

Not drawn accurately

What does this tell you about the amount of water saved?

Work out the value of $x$ as a decimal.	[3 marks]

Answer

Lily goes on a car journey.

For the first 30 minutes her average speed is 40 miles per hour.

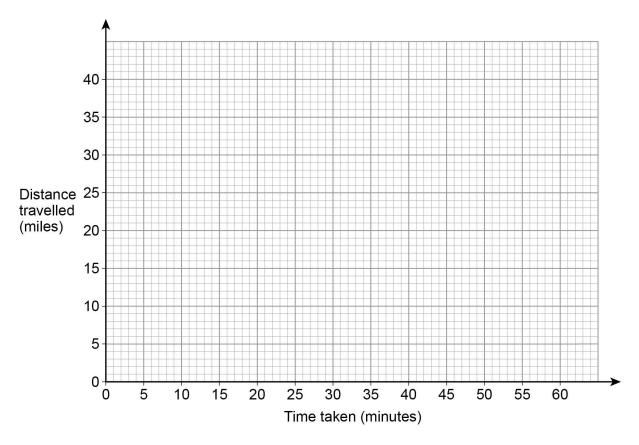

She then stops for 15 minutes.

She then completes the journey at an average speed of 60 miles per hour.

The total journey time is 1 hour.

**23 (a)** Draw a distance-time graph for her journey.

[3 marks]

**23 (b)** Write down the average speed for the total journey.

[1 mark]

Answer mph
